

Howdy Barn Burner 104 Athletes,

Welcome to the Blue Print for Athletes Barn Burner 104! For those of you racing solo, good luck on hopefully snagging a spot for the legendary Leadville Trail 100. Relay team riders, saddle up and get ready to race against your closest peers and rivals. We look forward to hosting and cheering all of you on!

For those of you who are new, be prepared for a great time! This is some killer mountain biking accompanied with beautiful pines and mountain air. When you arrive back at camp, there'll be plenty of brews for you to enjoy from Four Peaks Brewing Company. This year we will be camping in a new location but we hope to make it as phenomenal as every year! Make sure to read the new directions, this year's camp site is much closer to the main highway.

For those of ya'll that did not partake in the pre-rides, this is approximately a 26 mile looped course with plenty o' room for speed, some bumpy descents, and a few hills to keep you honest. The course is open to traffic, motorized buggies, deer, riders and other folk, so please be courteous, obey the law, and use your smarts.

Thank you for racing with us and we hope to see you again soon at many of our Life Time Events. Please visit www.eventsbylifetime.com for a complete listing of all of our events.

Giddy Up!

The Barn Burner Crew

NEW DIRECTIONS FOR 2016

QUALIFIER EXPLANATION

Each Leadville Qualifying Series race provides 70-100 qualifying slots to the Leadville Trail 100 Mountain Bike Race, based on the total number of registered riders at each qualifier event. Half of the qualifying spots will be allocated based on the top age-group performances and half will be drawn among riders who have met a time standard specific to that race.

In 2011, we implemented a corral system for starting positions at the Leadville Trail 100. Please review the chart below outlining corral numbers, bib, and bike plate colors.

FINISH TIME AT BARN BURNER	CORRAL NUMBER AND COLOR IN LEADVILLE

Leave No Trace Principals

Plan Ahead and Prepare

- Know the regulations and special concerns for the area you'll visit.
- Prepare for extreme weather, hazards, and emergencies.

Travel and Camp on Durable Surfaces

- Durable surfaces include established trails and campsites, rock, gravel, or dry grasses.
- Good campsites are found, not made. Altering a site is not necessary.

Dispose of Waste Properly

- Pack it in, pack it out.
- Portable toilets will be place throughout the site and at one aid station.
- If necessary, deposit solid human waste in catholes dug 6 to 8 inches deep at least 200 feet from water, camp, and trails. Cover and disguise the cathole when finished.

Leave What You Find

- Preserve the past: examine, but do not touch, cultural or historic structures and artifacts.
- Leave rocks, plants and other natural objects as you find them.

Minimize Campfire Impacts

- Campfires can cause lasting impacts to the backcountry. Use a lightweight stove for cooking and enjoy a candle lantern for light.
- Where fires are permitted, use established fire rings, fire pans, or mound fires.

Respect Wildlife

- Observe wildlife from a distance. Do not follow or approach them.
- Never feed animals. Feeding wildlife damages their health, alters natural behaviors, and exposes them to predators and other dangers.

Be Considerate of Other Visitors

- Respect other visitors and protect the quality of their experience.
- Be courteous. Yield to other users on the trail.

Thank ya kindly!

This event is not possible without the help of MANY people. Their support, time and flat out hard work enable us to put on fun, safe, memorable events. Be sure to visit with them, check out their gear, or just say THANKS. Your gratitude goes along way.
